

Dr Burch,

I can't begin to tell you how thankful I am for everything you did you me and my family...Right from the start you came in with a smile on your face and ready to take charge. **You promised me that day you would do your very best to make this a wonderful experience for us and I immediately felt at ease.** Let me tell you...you didn't disappoint...

...I have never met a doctor as caring and compassionate as you. We joked that day that we were on borrowed time since my little ones tend to come early...who would have thought I would have called you two days later in labor. **Even though we had just met you, I must say both my husband and I were at total ease with everything and had total confidence in your ability...**

...When I have told people about the delivery of Juliette I can't help but mention my wonderful doctor who went above and beyond what I ever expected for this birth. Your support during the labor, surgery, and recovery couldn't have been more. You will never know how much it meant that you offered to even give your number to the NICU staff in case of an emergency since you could be there faster than us. You came in to see us in the hospital even though you were supposed to be off that weekend. The care didn't stop once we left the hospital though...you called us to check on us a few times as well. It really touches us how much you care for your patients. **I am so blessed to have found your practice and so happy that Juliette was your first delivery at Virginia Hospital Center...**

...Thank you doesn't seem enough to say for all that you and your practice have done...but thank you.

Sincerely,

Audrey Lee
