

6/8/2010

*Dr. Burch-*

I want to thank you for the exquisite care I received as your patient. You far exceeded my expectations. You not only provided exceptional medical care but you were warm, friendly and inviting.

*You said from the beginning that your intention was to take good care of me. That was an understatement. You took great care of me.*

You were vigilant, sensitive to my needs and circumstances, and went out of your way to do the appropriate background work which influenced my management. You treated me like someone special and important and I am grateful to have had you as my surgeon.

With this I humbly say- Thank You.

*Sincerely,*

*Xzabia Caliste, MD*

*Vascular Surgeon*
